EXPERIENCE

Software Developer 12/2024 - 05/2025
Ministry of Finance, Republic of Indonesia

- Developed robust software solutions to streamline fiscal analysis and economic data management.
- Engineered ETL processes using Python and SQL, processing over 500 regional economic datasets.
- Delivered optimized code that supported fiscal strategy formulation across 3 regional areas, enhancing decision-making efficiency.

Frontend Developer 09/2024 - 12/2024
UI GreenMetric

- Designed and built responsive user interfaces for the UI GreenMetric World University Rankings platform using React.js, HTML5, and Tailwind CSS.
- Collaborated with cross-functional teams to enhance user experience and ensure seamless functionality.
- Boosted program visibility by 20% through engaging UI designs, reaching over 5,000 users.

Full Stack Developer 08/2024 - 11/2024
INSTIDLA ↗

- Spearheaded end-to-end web application development, leveraging PHP and Laravel for backend and React.js for frontend.
- Managed the full software lifecycle, from architecture design to deployment, integrating RESTful APIs and cloud-based solutions.
- Ensured scalable and maintainable codebases, optimizing system performance for organizational needs.
